

### Stormwater Management System

- Minneapolis is one of more than a thousand U.S. cities that have stormwater fees
- Stormwater fee for Murphy Warehouse Company's Minneapolis site was \$68,000 annually
- Murphy partnered with Wenck Engineers to design and build stormwater management system
- System includes one large open retention basin and three rain gardens
- System eliminates \$68,000 annual stormwater fee
- Received additional one-time savings from 50% federal depreciation tax deduction
- Cost of stormwater management system was \$580,000 – complete return on investment in 8.53 years
